### Pac Pac (p 16)

One version of the Pac Pac can be used as a puppet, and the other as a fortune teller. Write your own fun fortunes in the eight light spaces. For example: "You have a secret admirer," or "Double homework today!"

To tell fortunes, try this: ask your friend to choose one of the four colors, and open the Pac Pac to the front, then the side, then the front again, once per letter as you spell out the color. Then choose a number, and flip the Pac Pac that number of times. Finally, chose another number, and open up that flap to see the fortune underneath.
