

A Drinking Cup 盃

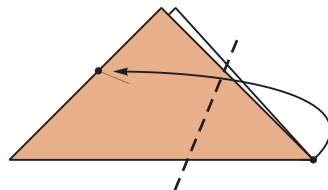

BEGINNER'S LEVEL

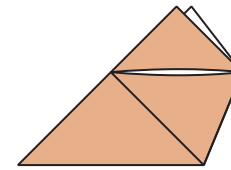

1 Begin with the white side facing up. Fold in half, corner-to-corner.

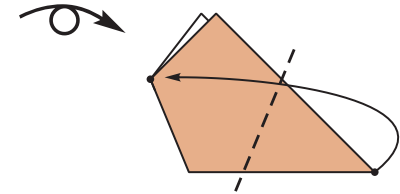

2 Fold the top layer only, corner to folded edge, and make a pinch mark on the left side. Unfold.

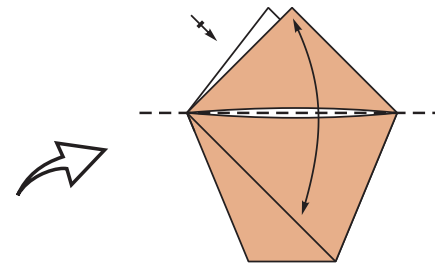

3 Fold the right corner to the pinch mark you just made.

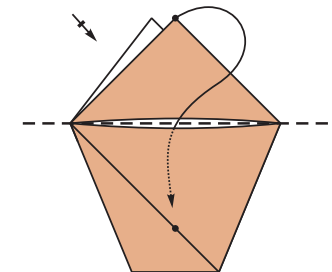

4 The completed step. Turn the model over.

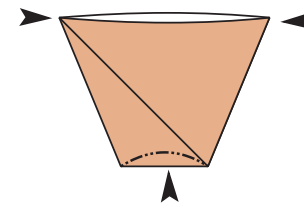

5 Fold the right corner to match the other side.

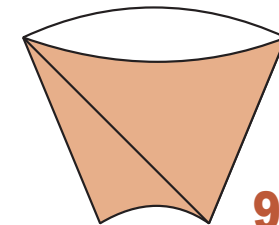

6 Fold down the top layer only, to lie against the flap you just made. Unfold. Repeat on the other side.

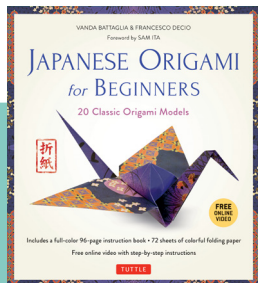

7 Notice the pocket in the top flap. Tuck the corner of the upper layer into that pocket. Repeat on the other side.

8 The completed step. Pull the model open at the top while gently pushing in at the bottom, making the cup three-dimensional.

9 The completed Drinking Cup.
