## FOLDING SYMBOLS

**WELCOME** to the fascinating world of origami!  
Here are some tips to keep in mind while folding:

- ▶ Pay careful attention to the dotted lines and arrows showing you which way to fold the paper.
- ▶ Always make sharp creases, using your fingernail, the bowl of a spoon, or a ruler to help smooth the folds.
- ▶ Keep a supply of scrap paper handy to practice making an object. Feel free to label your paper to match the diagrams.
- ▶ When following each step, it helps to look at the next diagram to see what the result should look like.
- ▶ When making a fold with tapered points, start at the narrowest portion of the point and then crease upward or outward from there.

*Have fun folding!*
