

Samurai Helmet 兜

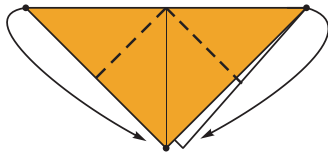

BEGINNER'S LEVEL

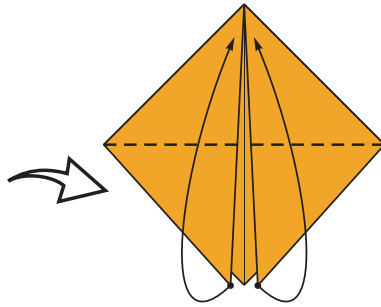

1 Begin with the minor color side facing up. Fold the model in half, corner-to-corner. Unfold.

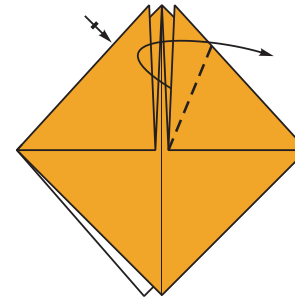

2 Fold the model in half, corner-to-corner, in the opposite direction.

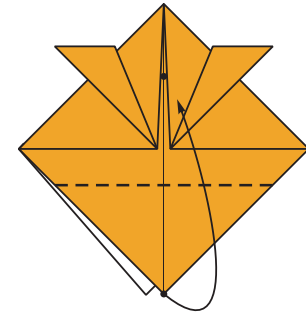

3 Bring both sides of the folded edge down to meet at the center crease.

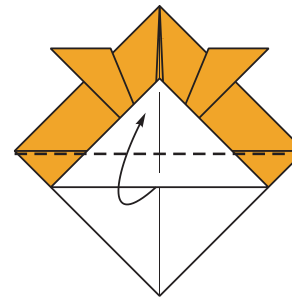

4 The completed step, with image enlarged. Bring the bottom of each top layer up to the top of the model.

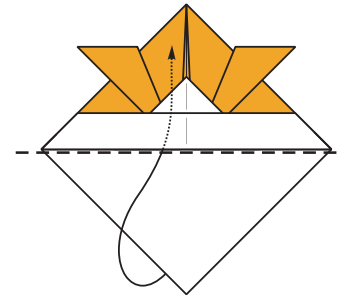

5 Fold the inside folded edge of each top layer out towards the side. Note that there is no precise landmark.

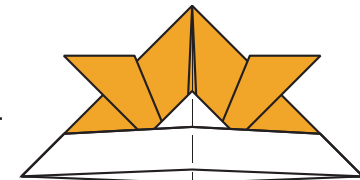

6 Fold the bottom of the top layer up approximately one-quarter of the distance from the top. Note that there is no precise landmark.

7 Fold the bottom folded edge of the top layer up. The new fold is parallel to the fold made in step 6, and intersects the widest points of the model.

8 Fold the back layer up to align with the bottom of the model, and tuck it inside the helmet.

9 The completed Samurai Helmet.

Find this fold in our *Japanese Origami for Beginners Kit!*
