The Tuttle Story

"Books to Span the East and West"

We are extremely honored to be celebrating our 70th anniversary this year as a world leader in publishing high-quality books on Asia.

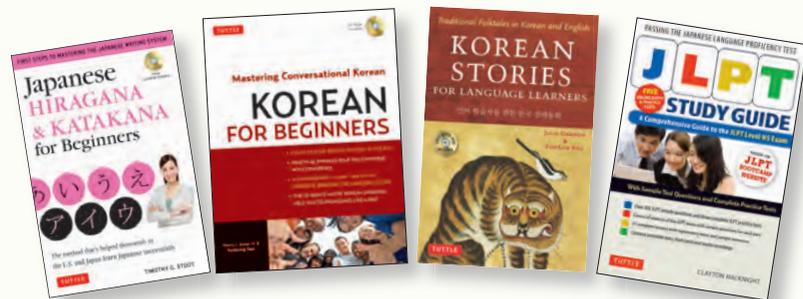

The original US-based Tuttle company has been in existence since 1832, however in 1948 Charles E. Tuttle opened a branch in Tokyo, Japan—which ushered in a new era in the company's history and shifted the focus to publishing books about Japan and Asia. Charles Tuttle passed away in 1993 and Eric Oey (Charles' cousin) became the President and Publisher three years later, making him the fifth generation in the Tuttle family to head the company.

Many titles published under Charles' direction remain popular today—a great testament to his success in delivering quality content that can stand the test of time. Since 1948, Tuttle has published over 6,000 books and maintains an active backlist of around 1,600 titles in multiple categories, including the following:

LANGUAGE LEARNING

Charles Tuttle knew that the best way to have a better relationship with Asians was to speak their language. Now, 70 years later, Tuttle is an acknowledged world leader in publishing books that teach languages spoken by 60% of the world's population—including **Japanese, Chinese, Korean, Tagalog, Vietnamese, Hindi, Indonesian,**

Arabic, Farsi and many more! Tuttle's language bestsellers include: **Korean for Beginners** and **Japanese Hiragana & Katakana for Beginners**. This season's standouts include **Korean Stories for Language Learners**, **Easy Burmese** and **JLPT Study Guide**—based on the popular JLPT Bootcamp blog that helps learners pass the official Japanese language proficiency exam.

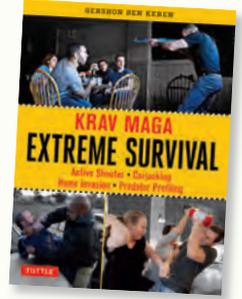

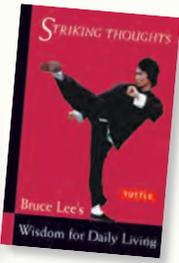

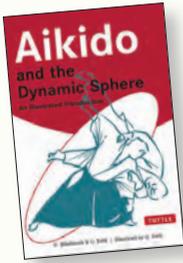

CRAFTS AND ORIGAMI

What better (or more enjoyable) way to learn about a culture than through their arts and crafts? One of Tuttle's most popular categories, these books teach readers of all ages how to make a variety of beautiful craft objects. Recent bestsellers in this category include: **Japanese Knitting Stitch Bible**, **Amazing Origami Kit**, **Stylish Wraps** and the award-winning **My First Origami Kit**. New titles that you will find in this catalog include **250 Japanese Knitting Stitches** and the fun and quirky **Origami Humans Kit**.

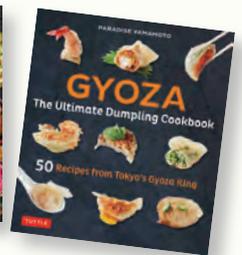

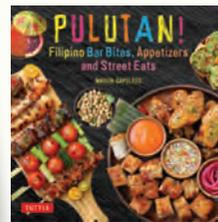

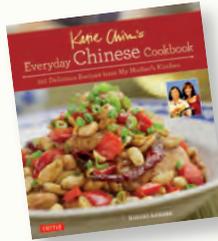

MARTIAL ARTS

Tuttle was a pioneer in publishing martial arts books—teaching everything from traditional martial arts like Karate, Judo and Taekwondo to modern-day Brazilian Jiu-Jitsu, Mixed Martial Arts and Krav Maga. Published almost 50 years ago, *Aikido and the Dynamic Sphere* has been a long-selling favorite. In 1997, almost 25 years after Bruce Lee's death, Tuttle was approached by the Lee family to publish his personal writings. This resulted in the **Bruce Lee Library**, a cornerstone of the company's martial arts list. Tuttle is releasing new paperback editions of Lee's works, as well as books like *Krav Maga Extreme Survival*—which addresses contemporary active shooter, terrorist and home invasion situations.

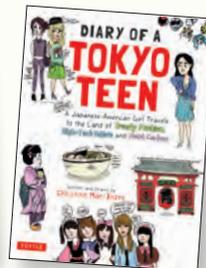

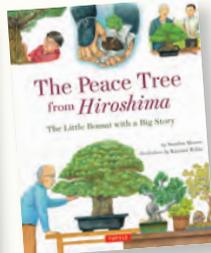

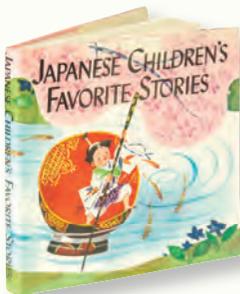

COOKING

Many American servicemen and women who returned home from Japan, Korea and Vietnam had developed a craving for Asian food. Charles Tuttle took advantage of this opportunity and began publishing cookbooks that appealed to these veterans and their families. Today, the popularity of Asian food is stronger than ever—especially among second- and third-generation Asian-Americans who remember their grandma's cooking fondly and want to recreate the flavors they miss. Bestselling Tuttle cookbooks include *Katie Chin's Everyday Chinese Cookbook* and exciting new titles like *Pulutan! Filipino Bar Bites, Appetizers and Street Eats* and *Gyoza*, a dumpling book by Japan's Gyoza King, Paradise Yamamoto.

CHILDREN'S

A leader in the field of multicultural children's books, Tuttle published an early collection of illustrated folktales called *Japanese Children's Favorite Stories* back in 1957, and this book still sells strongly today—over 60 years later! The company has since produced many award-winning children's titles, including: *Vietnamese Children's Favorite Stories*, *The Peace Tree from Hiroshima* and *Diary of a Tokyo Teen*. A new graphic novel this season, *Onibi: Diary of a Yokai Ghost Hunter*, will definitely appeal to young readers in the 21st century.

Tuttle publishes books in many other categories including: **Gardening & Design, Architecture, Art, Antiques & Collectibles, Literature, Travel, Health & Wellness, Spirituality, Culture and Current Affairs.**

We invite you to explore the rich cultural heritage of Asia by viewing the entire Tuttle backlist starting on page 70.

Miniature Japanese Gardens

Beautiful Indoor Landscape Container Gardens for Your Home

Kenji Kobayashi

Bring the tranquility of a classic Japanese garden into any space in your home or office. This book shows you how to create simple Japanese-style container gardens using inexpensive plants and materials that are available everywhere!

A detailed plan of each garden provides a basic template along with information about plant types and containers. Add rocks and other elements to produce Zen-like gardens that enhance any interior.

Step-by-step photos for over 40 different Japanese-style garden designs are provided along with photos of the original gardens in Japan that inspired them.

Kenji Kobayashi studied engineering and landscape gardening design in Japan but it was while living in Portland, Oregon that he first discovered his love for Bonsai. After returning to Japan he became absorbed in the study of Bonsai and created a new style called *Keshiki Bonsai* (Landscape Bonsai). He has authored several books, teaches classes and owns the shop Sinajina in Tokyo.

This book shows you how to create simple Japanese-style container gardens using inexpensive plants and materials that are available everywhere!

Basic Bonsai Landscape Techniques

First of all, here are the instructions for creating the most basic of basic landscapes composed of a single seedling, moss and ornamental sand. Regardless of the type of bonsai landscape you are making, this is the basic method, so make sure to master it. Here, we will make a basic landscape with a single tree using a Chinese elm (*Ulmus parvifolius Jacq*) and *Luzobryum perpusillum*.

1. Use a stick to work soil in to the gaps around the roots, packing it in firmly.

2. Press soil with a stick to remove any air voids and make the container.

3. Sprinkle soil with an atomizer to firm the soil, making sure the water is absorbed.

METHOD

1. Place a mesh over the hole in the base of the pot and secure with aluminum wire. Then use the atomizer to moisten the soil. Use the basic large grain for small trees and medium grain for medium trees.

2. Use the scoop to add compost until the base surface is covered.

3. Use pruning scissors to trim off old or damaged leaves. Check that there are no insects on the back of the leaves.

4. Take a large piece of moss and place it on the desired spot.

5. Use a chopstick at the edge of the moss to hold it in place, and press it firmly into the soil.

6. Work in the same way to add moss, taking care to make it look as if it is spreading naturally.

7. Use the tip of the bamboo to brush off soil around the roots a little at a time.

8. Use a stick to remove soil and cover to the top of the soil.

9. Use a stick to remove soil and cover to the top of the soil.

10. Use a stick to remove soil and cover to the top of the soil.

Modern Reader on the Chinese Classics of Flower Arrangement

“On Vase Flower Arrangement” & “History of Vases”

Zhang Qiande
Yuan Hongdao
Compiled by Li Xia

In China, flower arrangement is a venerable art with records dating back to the early Zhou Dynasty, the Spring and Autumn Period, and the Warring States Period, roughly between 11th century BC and 3rd century BC.

This volume brings together two celebrated Ming Dynasty texts, *On Vase Flower Arrangement* by Zhang Qiande (1577-1643) and *History of Vases* by Yuan Hongdao (1568-1610). The latter of which was translated into Japanese and deeply impacted that country's tradition of flower arrangement. Uniting the two famous books, horticulture scholar Li Xia provides contemporary readers with a theoretical framework for evaluating flowers, selecting vases and appreciating the time-honed techniques of Chinese flower arrangement.

Modern Reader on the Chinese Classics of Flower Arrangement includes images of several hundred Chinese paintings, documenting the rise of flower arrangement in China. By the Song Dynasty, flower arrangement was widely regarded as one of the four arts of literati leisure, along with tea brewing, incense burning and scroll-painting. Li Xia also highlights aspects of Chinese culture hidden behind flower arrangement, offering insights into its historic, aesthetic and philosophical underpinnings as well as a model textbook for flower arrangers at all stages of practice.

Zhang Qiande (1577-1643) was a painting and calligraphy collector and writer during the Ming Dynasty.

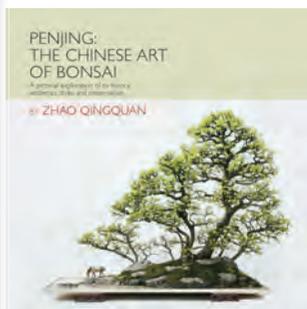

Yuan Hongdao (1568-1610) was a writer during the Ming Dynasty.

Li Xia has a PhD in landscape gardening from Nanjing Forestry University.

The Book of Tea

Beauty, Simplicity and the Zen Aesthetic

Okakura Kakuzo
Elise Grilli, foreword
Andrew Juniper, foreword
Liza Dalby, introduction

This classic work by Okakura Kakuzo has inspired many generations of readers by illuminating the underlying spirit and message of the venerable Japanese tea masters.

The Book of Tea doesn't focus on the tea ceremony itself but rather on the Zen Buddhist philosophy behind it. Kakuzo teaches us to cultivate an everyday awareness of the beauty in all the common things around us.

His powerful message is even more relevant today than when he wrote this book, and it serves as a wonderful introduction to the aesthetics and Zen culture of Japan.

This edition has a new foreword by Andrew Juniper, who runs the Wabi-Sabi Art Gallery in West Sussex, England, and an introduction by Liza Dalby, the first American woman to be fully trained as a geisha in Japan in the 1970's.

Okakura Kakuzo was born near Tokyo and learned English from a young age. He refined his language skills at the Institute of Foreign Studies and later studied Oriental Art at Tokyo Imperial University. He lived in America for several years where he served as Curator of the Department of Chinese and Japanese Art at the Boston Museum of Fine Art, helping the museum to build its fine collection of Japanese art.

Andrew Juniper lives in West Sussex, England where he runs the Wabi-Sabi Art Gallery. He is the author of *Wabi Sabi: The Japanese Art of Impermanence*.

Elise Grilli lived and worked in Tokyo for many years. She was an art critic for *The Japan Times* and published several books on Japanese art including *Golden Screen Paintings of Japan* and *Japanese Picture Scrolls*.

Liza Dalby is an author and anthropologist who, in the 1970s, became the first American woman to become fully trained as a geisha. Her publications include *Geisha* and the novel *The Tale of Murasaki*.

Krav Maga Extreme Survival

Active Shooter • Carjacking
Home Invasion • Predator Profiling

Gershon Ben Keren

This book is the result of extensive research into hundreds of active shooter and gun violence incidents. *Krav Maga Extreme Survival* provides a practical and apolitical guide to personal safety presenting proven and effective ways of keeping yourself safe in life threatening situations.

With over 25 years of experience, Gershon Ben Keren has had the privilege of training with the Israeli Defense Forces' most elite Close Combat/Krav Maga Instructors. In his book Ben Keren explains how Krav Maga tech-

niques can be used to survive the most extreme situations including carjackings, home invasions and attempted mass killings. The book also details predator profiling methods used by professionals to aid in the prediction, prevention and avoidance of violence.

Demonstrating effective solutions that have been proven to work in the real world, each chapter of *Krav Maga Extreme Survival* presents detailed photographs and instructions showing you how to defend yourself and others against:

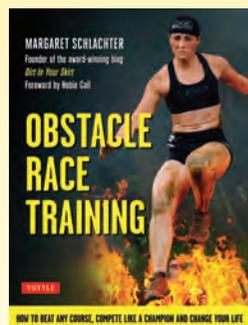

- Attacks in the workplace, at home and in public places
- Instances of domestic violence including violent and abusive relationships
- Assailants armed with knives, guns, explosives and improvised weapons
- Armed and unarmed attacks in cars and other confined or restricted spaces
- Vehicular rammings and physical attacks by unarmed assailants
- One-on-one assaults as well as attacks targeting a group of people

Ben Keren focuses on the psychology of violence to inform his self-defense methods. Emphasizing a dynamic assessment of your environment, combined with a rapid and sure response, *Krav Maga Extreme Survival* teaches practitioners to neutralize the assailant's advantages early on, before the situation is allowed to escalate.

Gershon Ben Keren is a 5th Degree Black Belt (and Head of System for Krav Maga Yashir) who has been training and teaching Krav Maga since 1994 in both Israel and Europe. He has trained with some of the Israeli Defense Forces' most respected and experienced instructors, and in 2010 he was inducted into the Museum of Israeli Martial Arts.

Having worked as a security operative, trainer and consultant, his emphasis is on practical violence mitigation, prediction and avoidance. His real world experiences coupled with his academic background (a master's degree in Psychology and post-graduate study in Criminology and Criminal Psychology), inform the reality-based self-defense training that he provides to private individuals, corporations and governmental agencies. He lives in Boston, where he runs his full-time school and corporate services, as well as providing free women's self-defense/self-protection training through Krav Maga Yashir Boston.

Miyamoto Musashi's Book of Five Rings

The Definitive Translation of the Timeless Masterpiece by Japan's Greatest Samurai

Miyamoto Musashi
Alexander Bennett, translator
Takashi Uozumi, foreword

- Outreach to martial arts blogs and print media
- Reviews in Japan-centric blogs and print media

Miyamoto Musashi (1584-1645) is the most famous Samurai who ever lived. His magnum opus, the *Go-Rin-Sho* or *Book of Five Rings* is a classic that is still read by tens of thousands of people each year—Japanese and foreigners alike. Alex Bennett's groundbreaking new translation of *The Book of Five Rings* reveals the true meaning of this text for the first time. Like Sun Tzu's *The Art of War*, Musashi's book offers unique insights not just for warriors but for anyone wanting to apply the Zen Buddhist principles of awareness and “no mind” to achieve success in their endeavors. This book sheds new light on Japanese history and on the philosophical meaning of Bushido—the ancient “code of the Japanese warrior.”

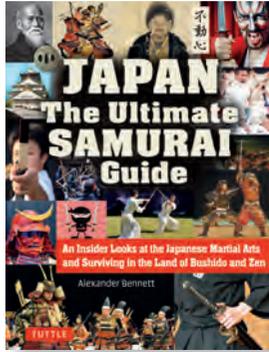

Unlike other translations that are based on incomplete and inaccurate versions of Musashi's work, Bennett's is the first to be based on a careful reconstruction of the long-lost original manuscript. Capturing the subtle nuances of the classical Japanese original, the result is a far more accurate and meaningful English version of *The Book of Five Rings* text.

This book is richly annotated and includes an extensive introduction to Musashi's life as well as a collection of his other writings translated into English here for the first time. A respected scholar as well as a skilled martial artist, Bennett's understanding of Musashi's life and work is unparalleled.

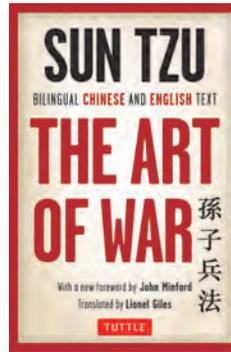

This book will be widely read by students of Japanese culture and history and by martial artists. It sets a new standard against which all other translations will be measured.

Alexander Bennett is a professor in Japanese history, martial arts and Budo theory at Kansai University. He co-founded and publishes *Kendo World*, the first English-language journal dedicated to Kendo. He holds black belts in several martial arts—Kendo Kyoshi 7-dan, Iaido 5-dan and Naginata 5-dan. His published works include *Japan: The Ultimate Samurai Guide* and *Hagakure: The Secret Wisdom of the Samurai*.

Bruce Lee Artist of Life

Inspiration and Insights from the World's Greatest Martial Artist

Bruce Lee
John Little, editor

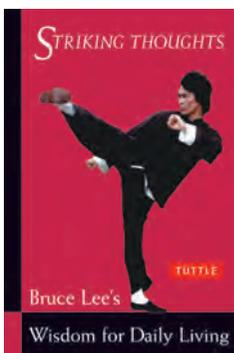

Named one of **TIME Magazine's "100 Greatest Men of the Century,"** Bruce Lee's impact and influence have only grown since his untimely death in 1973. Part of the seven-volume Bruce Lee Library, this installment of the famed martial artist's private notebooks allows his legions of fans to learn more about the man whose groundbreaking action films and martial arts training methods sparked a worldwide revolution in the Asian martial arts.

Bruce Lee Artist of Life explores the development of Lee's thoughts about Gung Fu (Kung Fu), philosophy, psychology, poetry, Jeet Kune Do, acting and self-knowledge. Edited by John Little, a leading authority on Lee's life and work, the book includes a selection of letters that eloquently explain how Lee incorporated his thought into actions and provided advice to others. Although Lee rose to stardom through his physical prowess and practice of Jeet Kune Do—the unique system of fighting he developed—Lee was also a voracious and engaged reader who wrote extensively, synthesizing Eastern and Western thought into a unique personal philosophy of self-discovery. Martial arts practitioners and fans alike eagerly anticipate each new volume of the library and its trove of rare letters, essays and poems for the light it sheds on this legendary figure.

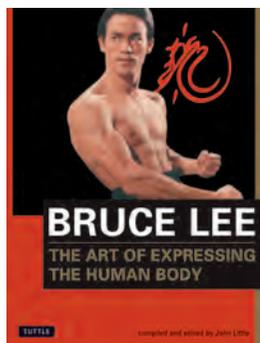

Bruce Lee (1940-1973) was born in San Francisco, but spent his formative years in Hong Kong. His own personal martial art style (Jeet Kune Do) sparked a revolution in how the Asian martial arts are studied and perceived today. His most famous film is *Enter the Dragon* (1973).

John Little was the first person authorized to review the entirety of Lee's personal notes, sketches and reading annotations.

The Chrysanthemum and the Sword

Patterns of Japanese Culture

Ruth Benedict
Ezra F. Vogel, foreword

The Chrysanthemum and the Sword is a timeless work that has defined much of our present understanding of Japan. “How and why does Japanese culture differ from our own?” and “Why is it seemingly so self-contradictory?” are just some of the questions addressed in this landmark study.

In her book, Benedict explains the importance of Japanese social structures including hierarchy, marriage, family, filial piety, self discipline and other core values—

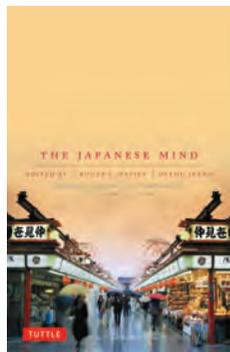

to illuminate the fact that while many things in Japan have changed, much remains the same. Remarkably, this masterpiece of “culture by distance” remains unsurpassed even today in providing insights on Japan and the distinctive Japanese way of life.

Through over fifty reprintings, this classic has made an indelible contribution to the study of Japanese culture, not only in the classroom but within popular culture in the United States and throughout the world.

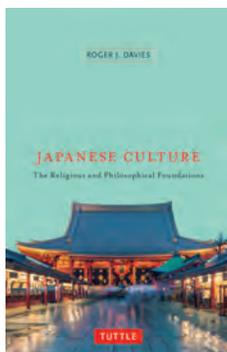

Ruth Benedict (1887-1948) was one of the most eminent American anthropologists of the twentieth century. Born in New York City, she received her doctorate from Columbia University in 1923 and remained there throughout her academic career. She is widely known for her 1934 book *Patterns of Culture*, considered an American classic.

Ezra F. Vogel is the Henry Ford II Professor of the Social Sciences Emeritus at Harvard University. He is a past director of Harvard’s East Asian Research Center and Chairman of the Council for East Asian Studies. He is the author of many books on Asia including Japan, China and Korea.

Korea: The Impossible Country

South Korea’s Amazing Rise from the Ashes: The Inside Story of an Economic, Political and Cultural Phenomenon

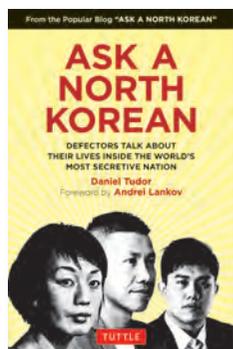

Daniel Tudor

In just fifty years, South Korea has transformed itself from a failed state, ruined and partitioned by war and decades of colonial rule, into an economic powerhouse and a democracy that serves as a model for other countries. How was it able to achieve this with no natural resources and a tradition of authoritarian rule? Who are the Koreans and how did they accomplish this second Asian miracle? Through a comprehensive exploration of Korean history, culture and society, and interviews with dozens of experts, celebrated journalist Daniel Tudor seeks answers to these and many other fascinating questions in *Korea: The Impossible Country*.

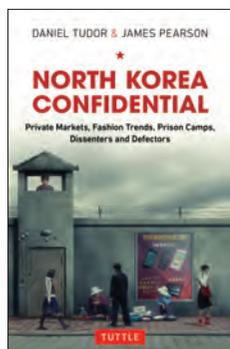

This new edition has been updated with additional materials on recent events including the Park impeachment and the sinking of the Sewol Ferry. Although South Korea has long been overshadowed by Japan and China, *Korea: The Impossible Country* illuminates how this small country is one of the great success stories of the postwar period.

Daniel Tudor graduated with a BA in Philosophy, Politics, and Economics from Oxford University. He has lived in Seoul for many years and served as Korea Correspondent for *The Economist* from 2010–2013. His subsequent book, *North Korea Confidential* (with James Pearson), was selected by *The Economist* as one of the best books of 2015.

Japanese Stories for Language Learners

Bilingual Stories in Japanese and English

Eriko Sato
Anne McNulty
Rose Goldberg, illustrator

A great Japanese story leads the reader on a fascinating journey of discovery—especially when presented in both English and Japanese! Beautifully illustrated in a traditional style, *Japanese Stories for Language Learners* offers five compelling Japanese short stories with Japanese and English versions appearing on facing pages.

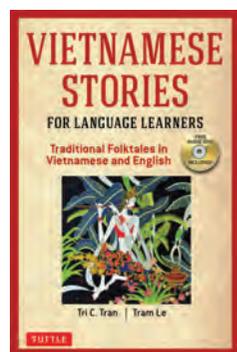

Taking learners on an exciting cultural and linguistic journey, each story is accompanied by a detailed set of translator's notes, vocabulary lists and grammar points along with discussion questions and exercises. The first two stories are well-known traditional folktales: *Urashima Taro* (*The Tale of a Fisherman*) and *Yuki Onna* (*The Snow Woman*). These are followed by three modern short stories by notable 20th century authors: *Kumo no Ito* (*The Spider's Thread*) by Akutagawa Ryunosuke (1892-1927), *Oborekaketa Kyodai* (*The Siblings Who Almost Drowned*) by Arishima Takeo (1878-1923) and *Serohiki no Goshu* (*Gauche the Cellist*) by Miyazawa Kenji (1896-1933). The latter stories are unabridged and unedited except for the addition of Furigana pronunciation marks above the Kanji characters.

Reading these stories in the original Japanese—and hearing native-speakers read them aloud in the accompanying free audio recordings—helps students at every level to deepen their appreciation for the beauty and subtlety of the Japanese language.

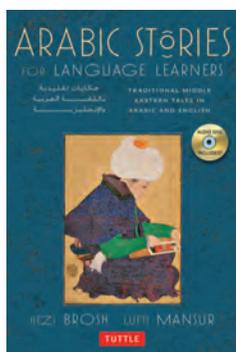

Eriko Sato is Assistant Professor in the Department of Asian and Asian American Studies at Stony Brook University. She serves as the Director of Asian Languages and teaches the Japanese language and translation studies of Asian languages.

Anne McNulty and illustrator Rose Goldberg are students at Stony Brook University.

“John Allyn’s masterful re-telling of the tale captures for modern readers much of the excitement with which the Japanese populace of the mid-eighteenth century would have responded to what for them was the equivalent of a newspaper sensation.”

—From the foreword by Stephen Turnbull

47 Ronin

John Allyn

Stephen Turnbull, foreword

Japan’s most celebrated tale of chivalry, loyalty and revenge—and the basis for a Hollywood feature film starring Keanu Reeves—*47 Ronin* is the epic tale of a heroic band of Samurai warriors who defy the Japanese Emperor to avenge the honor of their fallen master.

The story begins in 1701 when the noble Lord Asano attacks an official at court. His punishment is swift and harsh—the Emperor orders Lord Asano to commit ritual suicide (*harikiri*). His lands are confiscated, his family exiled, and his Samurai warrior brigade is disbanded—becoming Ronin or masterless, wandering renegades.

While appearing to follow the Emperor’s instructions, the 47 Ronin plot in secret for many years, biding their time until the moment to strike is right. Like the story of the Knights of the Round Table, the Ronin’s deeds became legendary, iconic examples of courage, cunning and loyalty in an age when the Samurai were true heroes and honor was something worth dying for.

John Allyn, Ph.D., is a specialist in Japanese Theatrical History.

Stephen Turnbull, a Japanese cultural consultant and Lecturer in Japanese Religion at Leeds University, has written more than 50 books on military history. He served as the historical advisor for the Universal Pictures film *47 Ronin*.

The Pillow Book of Sei Shōnagon

The Diary of a Courtesan in Tenth Century Japan

Arthur Waley, translator
Dennis Washburn, foreword

Japan in the Heian era stood physically and culturally isolated from the rest of the world. In her diary, Sei Shōnagon, a young courtesan of the Heian period, provides a highly personal account of the intrigues, dalliances, foibles and habits of Japan's late tenth-century elite. She was a contemporary and acquaintance of the well-known courtesan Murasaki Shikibu, author of the Japanese masterpiece *The Tale of Genji*. A perfect companion to that work, *The Pillow Book of Sei Shōnagon* brings an added dimension to Murasaki's timeless and

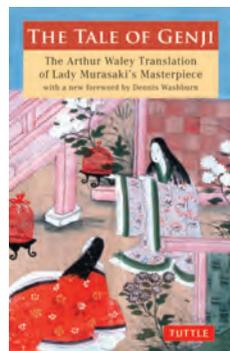

seminal novel and will be of great interest to anyone interested in early works of women's literature

In his elegant and readable translation, Arthur Waley perfectly conveys Sei Shōnagon's girlish temperament and quirky personality. In a place and time where poetry was important and beauty was highly revered, Sei Shōnagon's private writings offer a charming, intimate glimpse into a world of innocence and pale beauty. An introduction by respected Japanese literary scholar Dennis Washburn provides historical insight into Sei Shōnagon's world and Waley's translation.

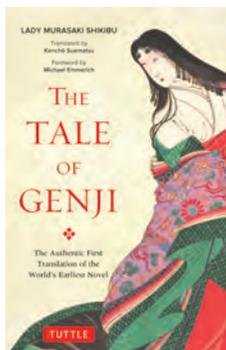

Arthur Waley (1889-1966) was one of the most respected translators of Asian classics into English of his time. His long list of translated works includes *The Tale of Genji*, *Monkey (The Journey to the West)*, *The Noh Plays of Japan* and *The Analects of Confucius*.

Dennis Washburn is the author of *Translating Mount Fuji: Modern Japanese Fiction and the Ethics of Identity* and translator of *Temple of the Wild Geese* and *Bamboo Dolls of Echizen*.

Bamboo and Me

Exploring Bamboo's Many Uses in Daily Life
A Story Told in English and Chinese

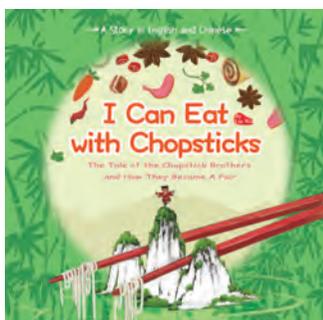

Xu Bin
Yuan Yahuan, illustrator

Is bamboo a food, a grass or a wood? One little boy knows that it's all three! Told in both English and Chinese, *Bamboo and Me* is the story of a little boy whose house was surrounded by many bamboo forests and streams. He lived with bamboo all year round. In spring, he ate delicate and delicious bamboo shoots; in summer, he crafted pliant bamboo stalks into baskets and brooms that he used as tools for fishing; in fall, he used mature bamboo to build kites that flew high and far; in winter, pork cooked with bamboo shoots was the celebratory dish for his family's New Year's Eve dinner. Even the special gift he received from his grandfather on New Year's Eve was made of bamboo. Winsomely told and delightfully illustrated, *Bamboo and Me* is a tale that will enchant readers of all ages.

The Little Pigs and the Sweet Rice Cakes

A Story Told in English and Chinese

• Ages 4–8

Li Jian

In America, every child knows the story of the three little pigs and the big, bad wolf, so they'll love reading about the pigs' Chinese counterparts. Told in a bilingual Chinese and English edition, this is the story of three little pigs whose appetites initially get the better of them. In a shared dream, they met an old man who tells them to deliver sweet rice cakes to him a week before New Year's Eve. The next morning, they see some sweet rice cakes on their kitchen table. The three little pigs completely forget the old man and eat every bit of them. When their mother comes home, she is very angry to discover all the cakes gone. Seeing their mother unhappy, the three little pigs help her make more delicious sweet rice cakes. When there is only a week left before Chinese New Year's Eve, their mother lays the sweet rice cakes in front of the portrait of the Kitchen God and prays for the peace for the family.

Li Jian was a children's books editor. He currently owns his own illustration studio.

Kimono Refashioned

Japan's Impact on International Fashion

Yuki Morishima, editor

Essays by: Akiko Fukai, Cynthia Amneus, Katherine Anne Paul
Karin G. Oen, Yuki Morishima and Rie Nii

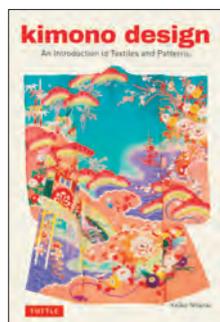

Spanning East to West, kimonos and kimono-influenced designs are everywhere, from high-end couturiers such as Yohji Yamamoto and Gucci to Main Street fashion chains such as Uniqlo and H&M. In *Kimono Refashioned*, contributors explore the impact of the kimono on the fashion world, charting how these striking and elegant unisex garments came to transcend their traditional Japanese design origins.

Featuring highlights from the renowned Kyoto Costume Institute, this lavish volume documents Japanese and Western designs, men's and women's apparel and both exacting and impressionistic references to the kimono. Contributors from the Asian Art Museum of San Francisco, the Newark Museum and the Cincinnati Art Museum join curators from the Kyoto Costume Institute to reflect upon the wide-range of motifs used to decorate kimonos, the form and silhouette of the Japanese traditional dress and how its basic two-dimensional structure and linear cut have been refashioned into a wide array of garments. As captivating as the kimono itself, this book will be a must-have for fashionistas and Asian art aficionados alike.

The Asian Art Museum-Chong-Moon Lee Center for Asian Art and Culture showcases the unique material, aesthetic and intellectual achievements of Asian art and culture.

**CHAPTER 5
 Telling Time**

To tell time, combine the numbers introduced in Chapter 4 (ichi, ni, san, etc.) with ji (hour) and fun (minute). Remember that a m. is gone, and m. is gone. These words go before the time, so in gone ji-ji (noon), the word gone comes first. The word goes after the time, so in gone ji-ji (noon), the word gone comes first. The word goes after the time, so in gone ji-ji (noon), the word gone comes first.

WORDS & EXPRESSIONS

one minute ichibu-ji 一分 (いちふん)	two minutes nibu-ji 二分 (にふん)	three minutes sanbu-ji 三分 (さんふん)	four minutes yobu-ji 四分 (よふん)	five minutes gobu-ji 五分 (ごふん)	one minute go-fun 一分 (ごふん)	two minutes ni-fun 二分 (にふん)	three minutes san-fun 三分 (さんふん)	four minutes shi-fun 四分 (しふん)	five minutes go-fun 五分 (ごふん)
--------------------------------------	------------------------------------	--	-------------------------------------	-------------------------------------	----------------------------------	-----------------------------------	---------------------------------------	-------------------------------------	------------------------------------

Although 5 is pronounced in either ichibu or nibu, which-fun is very hard.

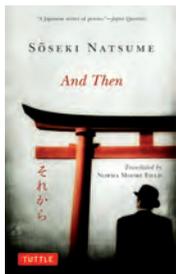

**CHAPTER 6
 Days of the Week**

The key to improving your Japanese is to use it every chance you get. Don't be discouraged and don't get discouraged. Use the word jidai (days) in your speech. You're much better off speaking in a monotonous than stressing the wrong syllables.

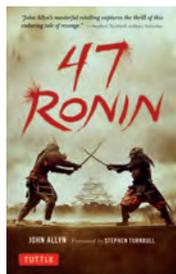

WORDS & EXPRESSIONS

Today kyou 今日 (けふ)	Sunday nichiichi 日曜日 (にちいち)	Sunday Doyichi 日曜日 (にちいち)
Monday monchi 月曜日 (げついち)	Wednesday sanchi 水曜日 (すいち)	Sunday Nichiichi 日曜日 (にちいち)
yesterday kyou 昨日 (けふ)	Thursday yokkaichi 木曜日 (もくいち)	wed. week mikkaichi 水曜日 (すいち)
Monday monchi 月曜日 (げついち)	Friday koyaichi 金曜日 (きんいち)	day after tomorrow ashita 明日 (あした)
